Dear Dr.P.Tamije Selvy,

Sub.: Invitation to chair a technical session at IEEE ICECCT 2017 – Reg.,

Greetings !!!

I would like to invite you to chair a session for the 2017 Second IEEE International Conference on Electrical, Computer and Communication Technologies (IEEE ICECCT 2017) to be held at SVS College of Engineering, Coimbatore, Tamil Nadu, India during 22 – 24, February 2017. The particulars pertaining to the session are detailed below:

Session ID : OPCS10
Date & Time : 24.02.2017 (Friday) & 11.30 am – 01.30 pm
Track : Computer Science (CS)
Venue : Presentation Hall 5
Contact Person : Ms. A. Anand, AP, ECE

Sessions comprise eight to ten research papers linked by a common theme, and session chairs are responsible for conducting the technical presentations as per the given schedule and issuing certificates to the participants once the session is completed. Being a session chair is a great way to contribute to the Society to meet people, and to ensure that the meeting provides a forum for discussion on topics interesting to the participants. I hope you could accept our offer and present yourself in the session allotted to you.

I would like to thank you for your extend support for IEEE ICECCT 2017.

Thank you

Regards

Respected Sir,

Subject: Seeking permission to avail OD, TA & DA to attend National Symposium on “Embracing Disruption – The Technology and Innovation Way” at Chennai – Reg.

I am writing this letter on behalf of our institution, to seek your permission for attending National Symposium on “Embracing Disruption – The Technology and Innovation Way”, Chennai. The Event will be held on 05th July 2018. In the symposium, students would be displaying their projects through a display stand. We may get a chance to expose, interact and network with Senior Industry persons at this Symposium

So I kindly request you to avail OD and issue TA, DA and grant the below mentioned amount. Accommodation will be taken care by myself.

Dear Madam,

I would like to bring to your kind notice that my paper "Transport and Distribution of Mercury in the Subsurface" has been selected for oral presentation in the 13th International Conference on the Biogeochemistry of Trace Elements to be held at Fukuoka, Japan between July 12 -16, 2015. The conference is a premier event for subsurface quality professionals dealing with trace metals contamination and remediation. My personal attendance and oral presentation in this conference would definitely be beneficial.

For applying travel grants to CSIR and DST, a copy of letter from parent institution conveying partial support for travel, and other expenses is essential. I request the management to provide a letter of the same content. I am confident you will see this as a worthwhile trip and I hope to get a positive reply.

An Innovative Technique Toward the Recognition of Carcinoma Using Classification and Regression Technique

M. Sangeetha, N. K. Karthikeyan and P. Tamijeselvy

Abstract Usually, the nature of a human body is that the cells start to develop, grow, live for some time, and die after a certain period of time. This phenomenon proceeds until the life span. But instead of this normal phenomenon, if the cells grow abundantly, then they end in carcinoma. Cancer cells destroy the entire functioning of the body. If cancer is found in the preliminary stage, then the extent of life span has been guaranteed to some extent. Existing categorization techniques do not provide exact classification results. Here, this work used the standard leukemia dataset for categorizing the cancer cells and non-cancer cells. Missed values are replaced through enhanced independent component analysis method. Further best features are selected through geometric particle swarm optimization. As a last step, cancer cells are categorized through classification and regression technique.

Keywords Bi-clustering Bayesian principal component analysis (Bi-BPCA) Decision tree • Classification and regression technique
