2016-17	Exam and Attendance Reforms	Remote attendance monitoring	Students will be in continuous monitoring within their respective smart class rooms. Attendence polling and retrieving the data will never disturb their Class Lecture. The system will operate anonymously.E-mail and SMS can also sent to parents in case of unplanned absence of students as alert.Data is stored in a public cloud with a web interface and user management engine, so at any time students or parents or faculties can verify.Finally it will increase the safety of the students and it make parents daily interacting with the school or college through WoT concept.Students can plan their attendance ratio that they feel comfortable and plan their extracurriculars accordingly.	100000.00	0.00	3000
2017-18	Waste Management	Low cost eco-friendly sanitary incinerator	A low cost sanitary incinerator made of recycled concrete devised by the students of civil engineering to solve the problems of menstrual waste management, which causes hazard if not disposed properly. The incinerator is fabricated using recycled concrete and has an air filter made of charcoal. The wastes are put into the collector and are burnt to ashes and the smoke is completely absorbed by the filter. The entire process happens in an enclosed concrete chamber, maintaining hygiene. The unit is deployed at 10 different locations across the campus.	50000.00	0.00	1500
